Allowance of Application # 09/698,247

1. The following communication is in response to applicant's amendment received 5-January-2005.

Examiner's Comment

2. The drawings filed on 30-October-2000 are acceptable subject to correction of the informalities indicated below. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

The drawings, specifically drawings nos. 2-4, submitted on 30-October-2000, are not in the English language, and must be translated into English.

Reasons for Allowance

3. The following is an Examiner's Statement of Reasons for the indication of allowable subject matter. The instant application is directed to a non-obvious improvement over the invention described in U.S. Patent Nos. 5,572,710 to Asano et al., the improvement comprising, in claim 1, a real time functional replicator of a specific integrated circuit, the replicator comprised of a functionally identical processing module and separately selectable peripheral hardware implementing one or more digital and/or analog functions. The art of record, either individually or in combination, fails to teach, suggest, or render obvious the useful, concrete and tangible <functional replicator having separately selectable peripheral hardware implementing one or more digital and/or analog functions> having the corresponding structure which is disclosed in the specification and equivalents thereof at least at page 4, line 10 through page 8, line 19, and
